Person-Driven Outcome Measures Demonstration Site Application

We invite you to apply to participate as a demonstration site for the *Person-Driven Outcome Measures* project by completing and returning the attached organization profile and questionnaire by **April 23, 2018**.

You may supplement the organizational profile and questionnaire with pre-existing documentation (e.g. *forms, policies and procedures, training, description of populations served, marketing materials or other examples*) which describe your organization - however, this is not required. All responses, examples and supporting documentation submitted could address how the organization currently elicits individual goals, monitors goal achievement, and/or collects person-reported outcome measures as part of a care planning process. **Any examples provided must have all personal health information (PHI) removed.**

Submission of these materials does not guarantee inclusion in the demonstration. An internal project advisory panel will make the final decision about which organizations are invited to participate in the learning collaborative. Demonstration sites will be selected based on their ability to participate fully in the demonstration, geographic diversity, and existing structures and processes that support person-centered, goal-based care. Upon receipt of your application, NCQA may contact you to discuss the submitted materials and to inquire further about your organization.

Application Timeline

Date	Activity
April 23, 2018	Application due
April 30, 2018	Formal invitations sent to selected sites

Please send the completed organizational profile and questionnaire to Eshang Wang at wang@ncqa.org by April 23, 2018. . Please direct any questions on the organizational profile or terms of participation to Eshang Wang by e-mail.

DO NOT SEND ANY PROTECTED HEALTH INFORMATION

Organizational Profile – In this section please describe your overall organization (e.g., provider network, managed care organization or other)

Organization name:

Address:

Contact information (primary contact for project management/coordination)

Name:	Title:
Phone:	E-mail:

Type of organization: (check all that apply)
