March 27, 2023

This document includes the corrections, clarifications and policy changes to the 2019 Population Health Program Accreditation standards and guidelines. NCQA has identified the appropriate page number in the publication and the standard/element head and subhead for each update. Updates have been incorporated into the Interactive Review Tool (IRT). NCQA operational definitions for correction, clarification and policy changes are as follows:

- A **correction (CO)** is a change made to rectify an error in the standards and guidelines.
- A **clarification (CL)** is additional information that explains an existing requirement.
- A **policy change (PC)** is a modification of an existing requirement.

An organization undergoing a survey under the 2019 standards and guidelines must implement corrections and policy changes within 90 calendar days of the IRT release date, unless otherwise specified. The 90-calendar-day advance notice does not apply to clarifications or FAQs, because they are not changes to existing requirements.

23	Policies and Procedures—Section 2: Scoring and Status Requirements	Accreditation Status—Corrective action	<p>Revise the first paragraph to read:</p> <p>In certain circumstances, NCQA may require the organization to take corrective actions and submit a CAP. Corrective actions are steps taken to improve performance when specific NCQA Accreditation requirements are not met. Corrective action requests are not specific to failed must-pass elements, which are also addressed during the CAP Survey process.</p> <p>Specific to interrater reliability (IRR) issues during the survey process, if an organization is found to be noncompliant during its survey, and the issue was not identified during a previous survey where the same requirement was reviewed and evaluated with evidence provided by the organization that was the same as or similar to the evidence provided previously, NCQA may require the organization to submit a corrective action plan addressing the noncompliant requirement.</p> <p>In most cases, this will not adversely impact the organization's Accreditation status. Failure to timely comply with requested corrective action requests may result in a lower score, or reduction or loss of Accreditation status. Refer to <i>Interrater Reliability</i> in <i>Section 5: Additional Information</i> for the definition of and information about interrater reliability.</p>	CL	3/27/23

8	Policies and Procedures—Section 1: Eligibility and the Application Process	Eligibility for Accreditation	<p>Add the following new subhead and text at the end of “Eligibility for Accreditation.”</p> <p>Eligibility for international organizations</p> <p>NCQA standards evaluate performance of U.S. health care organizations and their U.S. operations only. Organizations that apply for and participate in an NCQA Survey must agree to comply with all applicable U.S. federal, state and other applicable laws, and must agree that the use of NCQA products and services shall for all purposes be governed, interpreted, construed and enforced solely and exclusively in accordance with U.S. laws and regulations, without regard to conflicts of law provisions thereof.</p> <p>NCQA limits evaluation to organizations that operate in and outside the United States, and limits award of NCQA status to an organization’s U.S. operations. Organizations that do not operate in the United States (i.e., conduct all activities in the U.S., including in states and territories; conduct operations for U.S. members and clients) or have members, patients or clients in the United States are not eligible for NCQA Population Health Program Accreditation. NCQA does not evaluate operations of organizations that do not operate in the United States, or that do not have U.S. members, patients or clients.</p> <p>When determining eligibility of an organization with both U.S. and foreign operations, NCQA applies the following criteria:</p> <ol style="list-style-type: none"> 1. The applicant organization must be the accountable (responsible) entity for performing NCQA-reviewed functions, and must describe how it meets NCQA’s definition of an accreditable, certifiable or eligible entity. A parent, holding or shell company may not be eligible to apply. 2. The applicant organization must be a U.S. company, or be owned by a U.S. company, and provide services in the United States. An applicant organization that is not a U.S. company, but is owned by a U.S. company, must be domiciled in the United States by holding a business license or registration in at least one U.S. state or territory. The organization must submit evidence to reflect incorporation, registration or licensure to satisfy this criterion. 3. To be listed on NCQA’s public report card, the applicant organization must have a United States address for a facility, business office or administrative location. NCQA does not allow organizations to list an address of a 	CL	11/14/22

If any function to be reviewed is performed outside the United States, the organization must have the capability to complete the onsite survey (and/or any tour) virtually, and to present all required files electronically. Because NCQA does not travel outside the country for onsite reviews, the applicant organization must coordinate a virtual review to satisfy onsite requirements, which may include staff interviews or site tours, as described in NCQA standards. All virtual reviews must be conducted in English or with English translations for the NCQA survey team.</p> <p>5. The applicant organization must meet all other eligibility criteria specified in the preceding section.</p> <p>Any organization with U.S. and foreign operations that meets the criteria above may apply for an NCQA Survey, and may include functions performed outside the United States in its NCQA Survey.</p>		
10	Policies and Procedures—Section 1: Eligibility and the Application Process	Applying for an NCQA Survey—Processing criteria	<p>Replace the text with the following:</p> <p>NCQA only processes a complete application, which includes:</p> <ul style="list-style-type: none"> • The application for NCQA Population Health Program Accreditation Survey. • A signed Agreement for NCQA Population Health Program Accreditation Survey (“the Agreement”). • A signed Business Associate Agreement. • The application fee. <p>Note: The signed legal agreements establish the terms and conditions that all organizations must accept to participate in the survey, and that will apply for the length of the Accreditation. NCQA does not accept edits to the Agreements unless state or other applicable law requires modifications.</p> <p>An organization that has a legal conflict with a term or provision may submit to NCQA for review and consideration of a waiver or revision. Requests must be submitted with evidence of the legal conflict at least 12 months before the requested survey date and must be approved by NCQA. Signed Agreements will remain in effect for resurveys and any subsequent renewals. An organization may</p>	CL	3/30/20

15	Policies and Procedures—Section 2: Scoring and Status Requirements	A Standard's Structure—Data Source	Revise the definition of “documented process” to read: Documented process—Policies and procedures, process flow charts, protocols and other mechanisms that describe an actual process used by the organization. Policies and procedures are a formal documented process adopted by the organization that describes the course of action the organization will follow and the methods that will be carried out to achieve the policy objectives. If the scope of review indicates that policies and procedures are reviewed, a formal policy and procedure document must be provided as evidence to demonstrate performance. Policies and procedures must include an effective date.	CL	11/22/21
13	Policies and Procedures—Section 2: Scoring and Status Requirements	Corrective action	Replace the text with the following: In certain circumstances, NCQA may require corrective action and submission of a corrective action plan (CAP) by the organization. Corrective actions are steps taken to improve performance when an organization does not meet specific NCQA Accreditation requirements. Failure to timely comply with requested corrective action may result in a lower score or reduction or loss of Accreditation status. A CAP is considered complete when NCQA notifies the organization that all identified deficiencies are resolved and corrective actions have been implemented. If the CAP is not completed within the agreed-on time frame, the organization must notify NCQA of the reason. The ROC determines completion of the CAP. If the CAP is considered incomplete, the ROC may extend the CAP, reduce the organization's status or issue a Denied Accreditation status as specified below.	CL	11/23/20

81	PHP 9, Element C	Scope of review	Revise the scope of review to read: NCQA reviews reports from a sample of up to four randomly selected delegates, or reviews all delegates if the organization has fewer than four. NCQA reviews the organization's most recent annual review, audit, performance evaluation and semiannual evaluation. The score for the element is the average of the scores for all delegates.	CL	11/23/20
82	PHP 9, Element D	Scope of review	Revise the scope of review to read: NCQA reviews reports for opportunities for improvement, if applicable, from up to four randomly selected delegates, or from all delegates, if the organization has fewer than four, and for evidence that the organization took appropriate action to resolve issues. NCQA reviews the organization's most recent annual review and follow-up on improvement opportunities. The score for the element is the average of the scores for all delegates.	CL	11/23/20
83	PHP 9, Element D	NCQA-Accredited delegates	Add "NCQA-Prevalidated Health IT Solutions" to the sentence so the text reads: NCQA scores this element 100% if all delegates are NCQA-Accredited health plans or organizations, or are NCQA-Prevalidated Health IT Solutions, unless the element is NA.	CL	7/27/20
1-2	Appendix 1—Standard and Element Points for 2019	Table 1: PHP standard and point allocation	Revise the note below the table to reference IRT instead of ISS as follows: *For display purposes only, all points are rounded to three decimal places. NCQA does not allow these figures to be used to determine the official score. Only the IRT may be used to determine the official score.	CO	3/25/19
2-3	Appendix 2—Delegation and Automatic Credit Guidelines	Definitions	Add the following as a new definition: Previously unidentified delegate A contracted delegate identified during a survey that was not initially reported by the organization in the NCQA delegation worksheet.	CL	3/28/22

4-6	Appendix 4—Glossary		<p>Add the following as a new definition:</p> <p>interrater reliability: The extent to which two or more independent surveyors produce similar results when assessing whether the same requirement is met—the level of confidence that similarly trained individuals would be likely to produce similar scores on the same standards for the same product when the same evidence is evaluated.</p>	CL	7/25/22
4-6	Appendix 4—Glossary		<p>Update the definition of “policies and procedures” to read:</p> <p>A formal documented process adopted by the organization that describes the course of action the organization will follow and the methods that will be carried out to achieve the policy objectives. If the scope of review indicates that policies and procedures are reviewed, a formal policy and procedure document must be provided as evidence to demonstrate performance. Policies and procedures must include an effective date.</p>	CL	11/22/21
