Resource Directory of Incentives for NCQA Recognition

The Resource Directory of Incentives for NCQA Recognition links clinicians to local financial and non-financial resources that support Recognition. The directory includes a list of public, private and multi-payer initiatives, by state, that support a variety of NCQA Recognition programs including: Patient Centered Medical Home (PCMH), Patient Centered Specialty Practice (PCSP), Patient Centered Connected Care™, Diabetes Recognition Program (DRP), and Heart and Stroke Recognition Program (HSRP).

NCQA PCMH Recognition.

NCQA PCMH Recognition is the most widely-used way to transform primary care practices into medical homes. More than 13,000 practices (with more than 60,000 clinicians) are recognized – close to 20 percent of all primary care physicians.

How PCMH benefits clinicians and practices:

- **Earn higher reimbursement.** More than 50 payers nationwide offer enhanced reimbursement for recognized clinicians or support for practices to become recognized.
- **Succeed in MACRA.** Clinicians in NCQA-Recognized PCMHs/PCSPs automatically earn full credit in the MIPS Improvement Activities category and are likely to do well in other MIPS categories.
- **Earn Maintenance of Certification (MOC) credits.** Several medical boards award clinicians in NCQA-recognized practices Maintenance of Certification (MOC) credits, reducing the burden on clinicians to take on additional activities.
- **Focus on patient care.** The PCMH model ensures that team members operate at the highest level of their knowledge, skills, abilities and license, within their assigned roles and responsibilities.

- [Training \(On-site or On-demand\)](#)

Partners in Quality

The directory also highlights organizations and initiatives that are designated NCQA Partners in Quality (PIQ). The PIQ program is available for organizations and initiatives that provide a specific set of resources and services that support practices in pursuit of practice transformation. Entities designated as NCQA Partners in Quality receive an application discount code to offer participating practices.

Learn More

To share updates or learn about the PIQ program, please contact Marsha Hertzberg (hertzberg@ncqa.org)

Directory of PCMH Resources and Incentive Programs

Resources Key

Symbol	Meaning
	Financial Incentives or Assistance with Application Fees Organization or initiative offers financial incentives (e.g., increased PMPM). Note that incentives may not be offered to all network providers or all markets.
	Learning Collaborative Support Organization or initiative offers in-kind support in the form of learning collaboratives (e.g., sharing of best practices) to support practices pursuing and sustaining NCQA recognition.
	Care Management Support Organization or initiative offers in-kind support in the form of care management (e.g., additional staff resources) to support practices pursuing and sustaining NCQA recognition.
	Onsite Coaching/Technical Assistance Organization or initiative offers in-kind support in the form of on-site coaching or technical assistance to support practices pursuing and sustaining NCQA recognition.
	Medical Board Maintenance of Certification (MOC) Credit Certified physicians enrolled in specified NCQA recognition programs are eligible for Part IV Maintenance of Certification credit.
	Partner in Quality This organization provides financial incentives or other support to practices seeking recognition and can provide supported practices with a PIQ discount code.
	Supportive Technology Organization offers technology solutions (e.g., web-based software, data analytics) to support practices pursuing and sustaining NCQA recognition.
