

March 27, 2019

Dear WHP Contact:

Although the 2020 *Wellness and Health Promotion (WHP) Technical Specifications* publication is scheduled for release on March 31, because there are no policy changes to the specifications or to the general guidelines, NCQA will not issue a new publication in 2019.

Use the *WHP 2014 Technical Specifications* for WHP 2020 Performance Measure reporting, available in the Download Center. An updated version of the WHP reporting tool was released for WHP 2017 reporting; that tool should also be used for WHP 2020 reporting.

Please submit questions regarding this matter through My.NCQA (<http://my.ncqa.org>).

Sincerely,

Cindy Ottone
Director, HEDIS Policy
