Removed the data source reporting requirement from <i>General Guideline</i>: Race and Ethnicity Stratification. Added language to <i>General Guideline</i>: Race and Ethnicity Stratification to clarify that the data source reporting requirement only applies to the <i>Race and Ethnicity Diversity of Membership</i> measure.
Guidelines for Calculations and Sampling	✓	✓	✓	<ul style="list-style-type: none"> Removed references to the Childhood Immunization Status, Immunizations for Adolescents, Cervical Cancer Screening and Eye Exam for Patients With Diabetes measures from the <i>Guidelines for Calculations and Sampling</i> because this measure no longer includes the Hybrid reporting method. Updated Table 1: Sample Size Information for Hybrid Measures. Updated the HEDIS MY 2025 RAND Table for Measures Using the Hybrid Method.
Guidelines for Allowable Adjustments of HEDIS	✓	✓	✓	<ul style="list-style-type: none"> No changes to these guidelines.
EFFECTIVENESS OF CARE				
Guidelines for Effectiveness of Care	✓	✓	✓	<ul style="list-style-type: none"> No changes to these guidelines.
Weight Assessment and Counseling for Nutrition and Physical Activity for Children/ Adolescents (WCC)	✓	✓		<ul style="list-style-type: none"> No changes to this measure.

HEDIS MY 2025 Measures	Applicable to:			Changes for HEDIS MY 2025
	Commercial	Medicaid	Medicare	
Lead Screening in Children (LSC)		✓		<ul style="list-style-type: none"> No changes to this measure.
Chlamydia Screening (CHL)	✓	✓		<ul style="list-style-type: none"> Updated the measure title from Chlamydia Screening in Women to Chlamydia Screening. Replaced references to “women” with “members recommended for routine chlamydia screening.” Added criteria for “members recommended for routine chlamydia screening” to the eligible population. Added an exclusion for members who were assigned male at birth. Added a note to clarify that supplemental data can be used to identify members recommended for routine chlamydia screening.
Care for Older Adults (COA)			✓ (SNP and MMP only)	<ul style="list-style-type: none"> Removed the Pain Assessment indicator.
Oral Evaluation, Dental Services (OED)		✓		<ul style="list-style-type: none"> No changes to this measure.
Topical Fluoride for Children (TFC)		✓		<ul style="list-style-type: none"> No changes to this measure.
Appropriate Testing for Pharyngitis (CWP)	✓	✓	✓	<ul style="list-style-type: none"> No changes to this measure.
Pharmacotherapy Management of COPD Exacerbation (PCE)	✓	✓	✓	<ul style="list-style-type: none"> No changes to this measure.
Asthma Medication Ratio (AMR)	✓	✓		<ul style="list-style-type: none"> Added albuterol-budesonide as an asthma reliever medication. Clarified in the <i>Note</i> to not use RxNorm codes when identifying required exclusions. Removed the data source reporting requirement from the race and ethnicity stratification.
Controlling High Blood Pressure (CBP)	✓	✓	✓	<ul style="list-style-type: none"> Removed the data source reporting requirement from the race and ethnicity stratification.
Persistence of Beta-Blocker Treatment After a Heart Attack (PBH)	✓	✓	✓	<ul style="list-style-type: none"> No changes to this measure.

HEDIS MY 2025 Measures	Applicable to:			Changes for HEDIS MY 2025
	Commercial	Medicaid	Medicare	
Statin Therapy for Patients With Cardiovascular Disease (SPC)	✓	✓	✓	<ul style="list-style-type: none"> Added a required exclusion for muscular reactions to statins.
Cardiac Rehabilitation (CRE)	✓	✓	✓	<ul style="list-style-type: none"> No changes to this measure.
Glycemic Status Assessment for Patients with Diabetes (GSD)	✓	✓	✓	<ul style="list-style-type: none"> Removed the data source reporting requirement from the race and ethnicity stratification.
Blood Pressure Control for Patients With Diabetes (BPD)	✓	✓	✓	<ul style="list-style-type: none"> No changes to this measure.
Eye Exam for Patients With Diabetes (EED)	✓	✓	✓	<ul style="list-style-type: none"> Moved bilateral eye enucleation from the numerator to required exclusions. Added new criteria for identifying numerator events. Removed the Hybrid Data Collection Method. Removed the data source reporting requirement from the race and ethnicity stratification.
Kidney Health Evaluation for Patients With Diabetes (KED)	✓	✓	✓	<ul style="list-style-type: none"> Removed the data source reporting requirement from the race and ethnicity stratification.
Statin Therapy for Patients With Diabetes (SPD)	✓	✓	✓	<ul style="list-style-type: none"> Added muscular reactions to statins to the required exclusions.
Osteoporosis Management in Women Who Had a Fracture (OMW)			✓	<ul style="list-style-type: none"> No changes to this measure.
Osteoporosis Screening in Older Women (OSW)			✓	<ul style="list-style-type: none"> No changes to this measure.
Diagnosed Mental Health Disorders (DMH)	✓	✓	✓	<ul style="list-style-type: none"> No changes to this measure.
Follow-Up After Hospitalization for Mental Illness (FUH)	✓	✓	✓	<ul style="list-style-type: none"> Modified the denominator criteria to allow intentional self-harm diagnoses to take any position on the acute inpatient discharge claim. Added phobia, anxiety and additional intentional self-harm diagnoses to the denominator in the event/diagnosis. Added visits with any diagnosis of a mental health disorder to the numerator. Added peer support and residential treatment services to the numerator.

HEDIS MY 2025 Measures	Applicable to:			Changes for HEDIS MY 2025
	Commercial	Medicaid	Medicare	
				<ul style="list-style-type: none"> Deleted the <i>Note</i> regarding billing methods for intensive outpatient encounters and partial hospitalizations. Removed the data source reporting requirement from the race and ethnicity stratification.
Follow-Up After Emergency Department Visit for Mental Illness (FUM)	✓	✓	✓	<ul style="list-style-type: none"> Modified the denominator criteria to allow intentional self-harm diagnoses to take any position on the claim. Added phobia, anxiety and additional intentional self-harm diagnoses to the denominator in the event/diagnosis. Deleted the <i>Note</i> regarding billing methods for intensive outpatient encounters and partial hospitalizations. Removed the data source reporting requirement from the race and ethnicity stratification.
Diagnosed Substance Use Disorders (DSU)	✓	✓	✓	<ul style="list-style-type: none"> No changes to this measure.
Follow-Up After High Intensity Care for Substance Use Disorder (FUI)	✓	✓	✓	<ul style="list-style-type: none"> Added a laboratory claim exclusion to a value set for which laboratory claims should not be used. Deleted the <i>Note</i> regarding billing methods for intensive outpatient encounters and partial hospitalizations.
Follow-Up After Emergency Department Visit for Substance Use (FUA)	✓	✓	✓	<ul style="list-style-type: none"> Added a laboratory claim exclusion to a value set for which laboratory claims should not be used. Deleted the <i>Note</i> regarding billing methods for intensive outpatient encounters and partial hospitalizations. Removed the data source reporting requirement from the race and ethnicity stratification.

HEDIS MY 2025 Measures	Applicable to:			Changes for HEDIS MY 2025
	Commercial	Medicaid	Medicare	
Pharmacotherapy for Opioid Use Disorder (POD)	✓	✓	✓	<ul style="list-style-type: none"> Removed the data source reporting requirement from the race and ethnicity stratification.
Diabetes Screening for People With Schizophrenia or Bipolar Disorder Who Are Using Antipsychotic Medications (SSD)		✓		<ul style="list-style-type: none"> No changes to this measure.
Diabetes Monitoring for People With Diabetes and Schizophrenia (SMD)		✓		<ul style="list-style-type: none"> No changes to this measure.
Cardiovascular Monitoring for People With Cardiovascular Disease and Schizophrenia (SMC)		✓		<ul style="list-style-type: none"> No changes to this measure.
Adherence to Antipsychotic Medications for Individuals With Schizophrenia (SAA)	✓	✓	✓	<ul style="list-style-type: none"> No changes to this measure.
Advance Care Planning (ACP)			✓	<ul style="list-style-type: none"> No changes to this measure.
Transitions of Care (TRC)			✓	<ul style="list-style-type: none"> Added examples to the <i>Note</i> to clarify what is not considered evidence that the provider was aware of the member's hospitalization or discharge when reporting the Medication Reconciliation Post-Discharge indicator. Deleted the <i>Note</i> regarding billing methods for intensive outpatient encounters and partial hospitalizations.
Follow-Up After Emergency Department Visit for People With Multiple High-Risk Chronic Conditions (FMC)			✓	<ul style="list-style-type: none"> Added a laboratory claim exclusion to a value set for which laboratory claims should not be used. Deleted the <i>Note</i> regarding billing methods for intensive outpatient encounters and partial hospitalizations.
Non-Recommended PSA-Based Screening in Older Men (PSA)			✓	<ul style="list-style-type: none"> No changes to this measure.

HEDIS MY 2025 Measures	Applicable to:			Changes for HEDIS MY 2025
	Commercial	Medicaid	Medicare	
Appropriate Treatment for Upper Respiratory Infection (URI)	✓	✓	✓	<ul style="list-style-type: none"> No changes to this measure.
Avoidance of Antibiotic Treatment for Acute Bronchitis/ Bronchiolitis (AAB)	✓	✓	✓	<ul style="list-style-type: none"> No changes to this measure.
Use of Imaging Studies for Low Back Pain (LBP)	✓	✓	✓	<ul style="list-style-type: none"> Revised step 1 of the event/diagnosis to no longer require a diagnosis of uncomplicated low back pain to be in conjunction with a specific visit type. Added a diagnosis of osteoporosis to required exclusions.
Potentially Harmful Drug-Disease Interactions in Older Adults (DDE)			✓	<ul style="list-style-type: none"> Added anticholinergic drugs to the History of Falls rate. Updated medication tables based on latest clinical guidelines. Removed the Total rate.
Use of High-Risk Medications in Older Adults (DAE)			✓	<ul style="list-style-type: none"> Updated medications to reflect recommendations from the American Geriatrics Society Beers Criteria® for Potentially Inappropriate Medication Use in Older Adults.
Deprescribing of Benzodiazepines in Older Adults (DBO)			✓	<ul style="list-style-type: none"> Revised the second bullet of the stratification.
Use of Opioids at High Dosage (HDO)	✓	✓	✓	<ul style="list-style-type: none"> No changes to this measure.
Use of Opioids From Multiple Providers (UOP)	✓	✓	✓	<ul style="list-style-type: none"> No changes to this measure.
Risk of Continued Opioid Use (COU)	✓	✓	✓	<ul style="list-style-type: none"> No changes to this measure.
Medicare Health Outcomes Survey (HOS)			✓	<ul style="list-style-type: none"> This measure is collected using survey methodology. Detailed specifications and summary of changes are contained in <i>HEDIS Volume 6: Specifications for the Medicare Health Outcomes Survey</i>.
Fall Risk Management (FRM)			✓	<ul style="list-style-type: none"> This measure is collected using survey methodology. Detailed specifications and summary of changes are contained in <i>HEDIS Volume 6: Specifications for the Medicare Health Outcomes Survey</i>.

HEDIS MY 2025 Measures	Applicable to:			Changes for HEDIS MY 2025
	Commercial	Medicaid	Medicare	
Management of Urinary Incontinence in Older Adults (MUI)			✓	<ul style="list-style-type: none"> This measure is collected using survey methodology. Detailed specifications and summary of changes are contained in <i>HEDIS Volume 6: Specifications for the Medicare Health Outcomes Survey</i>.
Physical Activity in Older Adults (PAO)			✓	<ul style="list-style-type: none"> This measure is collected using survey methodology. Detailed specifications and summary of changes are contained in <i>HEDIS Volume 6: Specifications for the Medicare Health Outcomes Survey</i>.
Medical Assistance With Smoking and Tobacco Use Cessation (MSC)	✓	✓	✓	<ul style="list-style-type: none"> Updated the "Yr1_Num" and "Yr1_Denom" calculation formulas.
ACCESS/AVAILABILITY OF CARE				
Guidelines for Access/ Availability of Care				<ul style="list-style-type: none"> No changes to these guidelines.
Adults' Access to Preventive/ Ambulatory Health Services (AAP)	✓	✓	✓	<ul style="list-style-type: none"> No changes to this measure.
Initiation and Engagement of Substance Use Disorder Treatment (IET)	✓	✓	✓	<ul style="list-style-type: none"> Added a laboratory claim exclusion to a value set for which laboratory claims should not be used. Removed the data source reporting requirement from the race and ethnicity stratification.
Prenatal and Postpartum Care (PPC)	✓	✓		<ul style="list-style-type: none"> Removed the data source reporting requirement from the race and ethnicity stratification.
Use of First-Line Psychosocial Care for Children and Adolescents on Antipsychotics (APP)	✓	✓		<ul style="list-style-type: none"> No changes to this measure.

HEDIS MY 2025 Measures	Applicable to:			Changes for HEDIS MY 2025
