

SUMMARY TABLE OF MEASURES, PRODUCT LINES AND CHANGES

HEDIS MY 2024 Measures	Applicable to:			Changes for HEDIS MY 2024
	Commercial	Medicaid	Medicare	
General Guidelines for Data Collection and Reporting	✓	✓	✓	<ul style="list-style-type: none"> • Removed the numbering from the General Guidelines. • Updated General Guideline <i>HEDIS Submissions for Organizations Seeking Accreditation</i>. • Removed the small denominator thresholds for utilization measures that count member months in General Guideline <i>Reporting</i>. • Deleted General Guideline <i>Eligible Population</i>; requirements included in each measure and <i>Appendix 4: Data Element Definitions</i>. • Clarified reporting for dual enrollment for the Plan All-Cause Readmissions measure in General Guideline <i>Members With Dual Enrollment</i>. • Deleted General Guideline <i>Members in Hospice</i>; requirements included in each measure. • Deleted General Guideline <i>Deceased Members</i>; requirements included in each measure. • Revised General Guideline <i>Supplemental Data</i> to clarify NCQA DAV data guidance. • Deleted General Guideline <i>Required Data Element</i>; requirements included in <i>Appendix 4: Data Element Definitions</i>. • Deleted General Guideline <i>Identifying Events/Diagnoses Using Laboratory or Pharmacy Data</i>; new exclusion requirements are included in each measure. • Updated General Guideline <i>Member-Collected Samples</i> to clarify that member-collected samples processed by a laboratory or provider's office may be used for reporting. • Deleted General Guideline <i>Coding Systems Included in HEDIS Reporting</i>; requirements included in the HEDIS Value Set Directory. • Deleted General Guideline <i>Presentation of Codes in HEDIS</i> and General Guideline <i>Telehealth</i> and moved their definitions to <i>Appendix 3: Glossary</i>. • Revised General Guideline <i>Code Modifiers</i>; deleted Category II code modifier exclusions from the guideline and included them in each measure. • Revised General Guideline <i>Uniform Bill Code Specificity</i> to require four-digit versions of codes. • Revised General Guideline <i>Mapping Proprietary or Other Codes</i> to clarify when NDC and RxNorm codes may be mapped.

HEDIS MY 2024 Measures	Applicable to:			Changes for HEDIS MY 2024
	Commercial	Medicaid	Medicare	
				<ul style="list-style-type: none"> Revised General Guideline <i>Retiring Codes</i> to remove codes after the look-back period has passed. Clarified that ICD-9 codes will be removed from value sets in MY 2025.
Guidelines for Calculations and Sampling	✓	✓	✓	<ul style="list-style-type: none"> Removed references to the Colorectal Cancer Screening measure from the <i>Guidelines for Calculations and Sampling</i> because this measure no longer includes the Hybrid reporting method. Added instructions to <i>Determining the required sample size</i> for reducing the sample size for measures with stratifications. Updated Table 1: Sample Size Information for Hybrid Measures. Updated the HEDIS MY 2024 RAND Table for Measures Using the Hybrid Method.
Guidelines for Allowable Adjustments of HEDIS	✓	✓	✓	<ul style="list-style-type: none"> Removed the requirements for utilization measures that count member months in <i>Guideline 10: Denominator Size</i>.
EFFECTIVENESS OF CARE				
Guidelines for Effectiveness of Care	✓	✓	✓	<ul style="list-style-type: none"> No changes to these guidelines.
Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents (WCC)	✓	✓		<ul style="list-style-type: none"> Added a laboratory claim exclusion to value sets for which laboratory claims should not be used.
Childhood Immunization Status (CIS)	✓	✓		<ul style="list-style-type: none"> Added a laboratory claim exclusion to value sets for which laboratory claims should not be used. Expanded the age criteria in the <i>Rules for Allowable Adjustments of HEDIS</i>.
Immunizations for Adolescents (IMA)	✓	✓		<ul style="list-style-type: none"> Expanded the age criteria in the <i>Rules for Allowable Adjustments of HEDIS</i>.
Lead Screening in Children (LSC)		✓		<ul style="list-style-type: none"> Clarified that “Unknown” is not considered a result/finding for medical record reporting.
Cervical Cancer Screening (CCS)	✓	✓		<ul style="list-style-type: none"> Replaced references to “women” with “members recommended for routine cervical cancer screening.” Added criteria for “members recommended for routine cervical cancer screening” to the eligible population. Added a laboratory claim exclusion to value sets for which laboratory claims should not be used.

HEDIS MY 2024 Measures	Applicable to:			Changes for HEDIS MY 2024
	Commercial	Medicaid	Medicare	
				<ul style="list-style-type: none"> Added an exclusion for members who were assigned male at birth. Clarified that “Unknown” is not considered a result/finding for medical record reporting.
Chlamydia Screening in Women (CHL)	✓	✓		<ul style="list-style-type: none"> Added a laboratory claim exclusion to value sets for which laboratory claims should not be used.
Care for Older Adults (COA)			✓ (SNP and MMP only)	<ul style="list-style-type: none"> Revised the numerator to clarify settings where CPT Category II code modifiers should not be used (previously covered in a General Guideline).
Oral Evaluation, Dental Services (OED)		✓		<ul style="list-style-type: none"> Updated the age criteria in the <i>Rules for Allowable Adjustments of HEDIS</i> to allow organizations to expand the age range.
Topical Fluoride for Children (TFC)		✓		<ul style="list-style-type: none"> Updated the age criteria in the <i>Rules for Allowable Adjustments of HEDIS</i> to allow organizations to expand the age range.
Appropriate Testing for Pharyngitis (CWP)	✓	✓	✓	<ul style="list-style-type: none"> Added a laboratory claim exclusion to value sets for which laboratory claims should not be used.
Pharmacotherapy Management of COPD Exacerbation (PCE)	✓	✓	✓	<ul style="list-style-type: none"> No changes to this measure.
Asthma Medication Ratio (AMR)	✓	✓		<ul style="list-style-type: none"> Added a laboratory claim exclusion to value sets for which laboratory claims should not be used.
Controlling High Blood Pressure (CBP)	✓	✓	✓	<ul style="list-style-type: none"> Added a laboratory claim exclusion to value sets for which laboratory claims should not be used. Revised the method for identifying advanced illness. Moved previously listed <i>Exclusions</i> to <i>Required exclusions</i>. Revised the numerator to clarify settings where CPT Category II code modifiers should not be used (previously covered in a General Guideline). Revised the “Denominator Exclusions” criteria in the Clinical Components table under <i>Rules for Allowable Adjustments of HEDIS</i>.
Persistence of Beta-Blocker Treatment After a Heart Attack (PBH)	✓	✓	✓	<ul style="list-style-type: none"> Added a laboratory claim exclusion to value sets for which laboratory claims should not be used. Revised the method for identifying advanced illness. Moved previously listed <i>Exclusions</i> to <i>Required exclusions</i>.

4 Summary Table of Measures, Product Lines and Changes

HEDIS MY 2024 Measures	Applicable to:			Changes for HEDIS MY 2024
	Commercial	Medicaid	Medicare	
				<ul style="list-style-type: none"> Revised the “Denominator Exclusions” criteria in the Clinical Components table under <i>Rules for Allowable Adjustments of HEDIS</i>.
Statin Therapy for Patients With Cardiovascular Disease (SPC)	✓	✓	✓	<ul style="list-style-type: none"> Added a laboratory claim exclusion to value sets for which laboratory claims should not be used. Revised the method for identifying advanced illness. Moved previously listed <i>Exclusions</i> to <i>Required exclusions</i>. Revised the “Denominator Exclusions” criteria in the Clinical Components table under <i>Rules for Allowable Adjustments of HEDIS</i>.
Cardiac Rehabilitation (CRE)	✓	✓	✓	<ul style="list-style-type: none"> Added a laboratory claim exclusion to value sets for which laboratory claims should not be used. Revised the method for identifying advanced illness. Moved previously listed <i>Exclusions</i> to <i>Required exclusions</i>. Revised the “Denominator Exclusions” criteria in the Clinical Components table under <i>Rules for Allowable Adjustments of HEDIS</i>.
Glycemic Status Assessment for Patients with Diabetes (GSD)	✓	✓	✓	<ul style="list-style-type: none"> Updated the measure title. Added glucose management indicator as an option to meet numerator criteria. Updated the event/diagnosis criteria. Updated the Diabetes Medications table. Removed the required exclusion for members who did not have a diagnosis of diabetes. Added a laboratory claim exclusion to value sets for which laboratory claims should not be used. Moved previously listed <i>Exclusions</i> to <i>Required exclusions</i>. Revised the method for identifying advanced illness. Revised the numerator to clarify settings where CPT Category II code modifiers should not be used (previously covered in a General Guideline). Clarified that “Unknown” is not considered a result/finding. Revised the “Denominator Exclusions” criteria in the Clinical Components table under <i>Rules for Allowable Adjustments of HEDIS</i>.
Blood Pressure Control for Patients With Diabetes (BPD)	✓	✓	✓	<ul style="list-style-type: none"> Updated the event/diagnosis criteria. Updated the Diabetes Medications table.

HEDIS MY 2024 Measures	Applicable to:			Changes for HEDIS MY 2024
	Commercial	Medicaid	Medicare	
				<ul style="list-style-type: none"> • Removed the required exclusion for members who do not have diagnosis of diabetes. • Added a laboratory claim exclusion to value sets for which laboratory claims should not be used. • Moved previously listed <i>Exclusions</i> to <i>Required exclusions</i>. • Revised the method for identifying advanced illness. • Revised the numerator to clarify settings where CPT Category II code modifiers should not be used (previously covered in a General Guideline). • Clarified that “Unknown” is not considered a result/finding. • Revised the “Denominator Exclusions” criteria in the Clinical Components table under <i>Rules for Allowable Adjustments of HEDIS</i>.
Eye Exam for Patients With Diabetes (EED)	✓	✓	✓	<ul style="list-style-type: none"> • Added instructions to report rates stratified by race and ethnicity for each product line. • Updated the event/diagnosis criteria. • Updated the Diabetes Medications table. • Removed the required exclusion for members who did not have a diagnosis of diabetes. • Added a laboratory claim exclusion to value sets for which laboratory claims should not be used. • Moved previously listed <i>Exclusions</i> to <i>Required exclusions</i>. • Revised the method for identifying advanced illness. • Revised the numerator to clarify settings where CPT Category II code modifiers should not be used (previously covered in a General Guideline). • Clarified in the <i>Notes</i> that inaccessibility of one eye is not considered a result/finding. • Revised the “Denominator Exclusions” criteria in the Clinical Components table under <i>Rules for Allowable Adjustments of HEDIS</i>.
Kidney Health Evaluation for Patients With Diabetes (KED)	✓	✓	✓	<ul style="list-style-type: none"> • Added instructions to report rates stratified by race and ethnicity for each product line. • Updated the age stratifications to align with the National Kidney Foundation. • Updated the event/diagnosis criteria. • Updated the Diabetes Medications table. • Removed the required exclusion for members who did not have a diagnosis of diabetes. • Added a laboratory claim exclusion to value sets for which laboratory claims should not be used.

HEDIS MY 2024 Measures	Applicable to:			Changes for HEDIS MY 2024
	Commercial	Medicaid	Medicare	
				<ul style="list-style-type: none"> • Moved previously listed <i>Exclusions</i> to <i>Required exclusions</i>. • Revised the method for identifying advanced illness. • Revised the “Denominator Exclusions” criteria in the Clinical Components table under <i>Rules for Allowable Adjustments of HEDIS</i>.
Statin Therapy for Patients With Diabetes (SPD)	✓	✓	✓	<ul style="list-style-type: none"> • Updated the event/diagnosis criteria. • Updated the Diabetes Medications table. • Added a laboratory claim exclusion to value sets for which laboratory claims should not be used. • Moved previously listed <i>Exclusions</i> to <i>Required exclusions</i>. • Revised the method for identifying advanced illness. • Revised the “Denominator Exclusions” criteria in the Clinical Components table under <i>Rules for Allowable Adjustments of HEDIS</i>.
Osteoporosis Management in Women Who Had a Fracture (OMW)			✓	<ul style="list-style-type: none"> • Revised the method to identify negative diagnosis history. • Renamed “Step 4: Required exclusions” to “Step 4.” • Added a <i>Required exclusions</i> section. • Revised the method for identifying advanced illness. • Added a laboratory claim exclusion to value sets for which laboratory claims should not be used. • Revised the “Denominator Exclusions” criteria in the Clinical Components table under <i>Rules for Allowable Adjustments of HEDIS</i>.
Osteoporosis Screening in Older Women (OSW)			✓	<ul style="list-style-type: none"> • Added a laboratory claim exclusion to value sets for which laboratory claims should not be used. • Moved previously listed Exclusions to Required exclusions. • Revised the method for identifying advanced illness. • Revised the “Denominator Exclusions” criteria in the Clinical Components table under <i>Rules for Allowable Adjustments of HEDIS</i>.
Diagnosed Mental Health Disorders (DMH)	✓	✓	✓	<ul style="list-style-type: none"> • Added a laboratory claim exclusion to value sets for which laboratory claims should not be used.
Antidepressant Medication Management (AMM)	✓	✓	✓	<ul style="list-style-type: none"> • No changes to this measure.

HEDIS MY 2024 Measures	Applicable to:			Changes for HEDIS MY 2024
	Commercial	Medicaid	Medicare	
Follow-Up After Hospitalization for Mental Illness (FUH)	✓	✓	✓	<ul style="list-style-type: none"> Added instructions to report rates stratified by race and ethnicity for each product line.
Follow-Up After Emergency Department Visit for Mental Illness (FUM)	✓	✓	✓	<ul style="list-style-type: none"> Added instructions to report rates stratified by race and ethnicity for each product line.
Diagnosed Substance Use Disorders (DSU)	✓	✓	✓	<ul style="list-style-type: none"> Added a laboratory claim exclusion to value sets for which laboratory claims should not be used.
Follow-Up After High Intensity Care for Substance Use Disorder (FUI)	✓	✓	✓	<ul style="list-style-type: none"> Added a <i>Note</i> to the <i>Benefits</i> section to clarify that withdrawal management/detoxification-only chemical dependency benefits alone do not meet criteria.
Follow-Up After Emergency Department Visit for Substance Use (FUA)	✓	✓	✓	<ul style="list-style-type: none"> No changes to this measure.
Pharmacotherapy for Opioid Use Disorder (POD)	✓	✓	✓	<ul style="list-style-type: none"> Added a laboratory claim exclusion to value sets for which laboratory claims should not be used.
Diabetes Screening for People With Schizophrenia or Bipolar Disorder Who Are Using Antipsychotic Medications (SSD)		✓		<ul style="list-style-type: none"> Updated the <i>Required exclusions</i>. Updated the Diabetes Medications table. Revised the numerator to clarify settings where CPT Category II code modifiers should not be used (previously covered in a General Guideline).
Diabetes Monitoring for People With Diabetes and Schizophrenia (SMD)		✓		<ul style="list-style-type: none"> Updated step 2 of the event/diagnosis. Updated the Diabetes Medications table. Removed the required exclusion for members who did not have a diagnosis of diabetes. Added a laboratory claim exclusion to value sets for which laboratory claims should not be used. Revised the numerator to clarify settings where CPT Category II code modifiers should not be used (previously covered in a General Guideline). Revised the “Denominator Exclusions” criteria in the Clinical Components table under <i>Rules for Allowable Adjustments of HEDIS</i>.

HEDIS MY 2024 Measures	Applicable to:			Changes for HEDIS MY 2024
	Commercial	Medicaid	Medicare	
Cardiovascular Monitoring for People With Cardiovascular Disease and Schizophrenia (SMC)		✓		<ul style="list-style-type: none"> Revised the numerator to clarify settings where CPT Category II code modifiers should not be used (previously covered in a General Guideline).
Adherence to Antipsychotic Medications for Individuals With Schizophrenia (SAA)	✓	✓	✓	<ul style="list-style-type: none"> Added a laboratory claim exclusion to value sets for which laboratory claims should not be used. Moved previously listed <i>Exclusions</i> to <i>Required exclusions</i>. Revised the method for identifying advanced illness. Revised the “Denominator Exclusions” criteria in the Clinical Components table under <i>Rules for Allowable Adjustments of HEDIS</i>.
Advance Care Planning (ACP)			✓	<ul style="list-style-type: none"> Revised the method for identifying advanced illness. Added a laboratory claim exclusion to value sets for which laboratory claims should not be used. Revised the numerator to clarify settings where CPT Category II code modifiers should not be used (previously covered in a General Guideline). Expanded the age criteria in the <i>Rules for Allowable Adjustments of HEDIS</i>.
Transitions of Care (TRC)			✓	<ul style="list-style-type: none"> Revised the numerator to clarify settings where CPT Category II code modifiers should not be used (previously covered in a General Guideline).
Follow-Up After Emergency Department Visit for People With Multiple High-Risk Chronic Conditions (FMC)			✓	<ul style="list-style-type: none"> Revised the “Exclusions” criteria in the Clinical Components table under <i>Rules for Allowable Adjustments of HEDIS</i>.
Non-Recommended PSA-Based Screening in Older Men (PSA)			✓	<ul style="list-style-type: none"> Added a laboratory claim exclusion to value sets for which laboratory claims should not be used.
Appropriate Treatment for Upper Respiratory Infection (URI)	✓	✓	✓	<ul style="list-style-type: none"> Added a laboratory claim exclusion to value sets for which laboratory claims should not be used. Revised the second <i>Note</i> to clarify that supplemental data can be used for required exclusions.
Avoidance of Antibiotic Treatment for Acute Bronchitis/ Bronchiolitis (AAB)	✓	✓	✓	<ul style="list-style-type: none"> Added a laboratory claim exclusion to value sets for which laboratory claims should not be used.

HEDIS MY 2024 Measures	Applicable to:			Changes for HEDIS MY 2024
	Commercial	Medicaid	Medicare	
				<ul style="list-style-type: none"> Revised the second <i>Note</i> to clarify that supplemental data can be used for required exclusions.
Use of Imaging Studies for Low Back Pain (LBP)	✓	✓	✓	<ul style="list-style-type: none"> Revised the age criteria to 18–75 years as of December 31 of the measurement year. Added a laboratory claim exclusion to value sets for which laboratory claims should not be used. Revised the method for identifying advanced illness. Moved previously listed <i>Exclusions</i> to <i>Required exclusions</i>.
Potentially Harmful Drug-Disease Interactions in Older Adults (DDE)			✓	<ul style="list-style-type: none"> Added a laboratory claim exclusion to value sets for which laboratory claims should not be used.
Use of High-Risk Medications in Older Adults (DAE)			✓	<ul style="list-style-type: none"> Added a laboratory claim exclusion to value sets for which laboratory claims should not be used.
Deprescribing of Benzodiazepines in Older Adults (DBO)			✓	<ul style="list-style-type: none"> Added a laboratory claim exclusion to value sets for which laboratory claims should not be used.
Use of Opioids at High Dosage (HDO)	✓	✓	✓	<ul style="list-style-type: none"> Added a laboratory claim exclusion to value sets for which laboratory claims should not be used.
Use of Opioids From Multiple Providers (UOP)	✓	✓	✓	<ul style="list-style-type: none"> Revised the second <i>Note</i> to clarify that supplemental data can be used for required exclusions.
Risk of Continued Opioid Use (COU)	✓	✓	✓	<ul style="list-style-type: none"> Added a laboratory claim exclusion to value sets for which laboratory claims should not be used.
Medicare Health Outcomes Survey (HOS)			✓	<ul style="list-style-type: none"> This measure is collected using survey methodology. Detailed specifications and summary of changes are contained in <i>HEDIS Volume 6: Specifications for the Medicare Health Outcomes Survey</i>.
Fall Risk Management (FRM)			✓	<ul style="list-style-type: none"> This measure is collected using survey methodology. Detailed specifications and summary of changes are contained in <i>HEDIS Volume 6: Specifications for the Medicare Health Outcomes Survey</i>.
Management of Urinary Incontinence in Older Adults (MUI)			✓	<ul style="list-style-type: none"> This measure is collected using survey methodology. Detailed specifications and summary of changes are contained in <i>HEDIS Volume 6: Specifications for the Medicare Health Outcomes Survey</i>.

HEDIS MY 2024 Measures	Applicable to:			Changes for HEDIS MY 2024
	Commercial	Medicaid	Medicare	
Physical Activity in Older Adults (PAO)			✓	<ul style="list-style-type: none"> This measure is collected using survey methodology. Detailed specifications and summary of changes are contained in <i>HEDIS Volume 6: Specifications for the Medicare Health Outcomes Survey</i>.
Medical Assistance With Smoking and Tobacco Use Cessation (MSC)	✓	✓	✓	<ul style="list-style-type: none"> No changes to this measure.
ACCESS/AVAILABILITY OF CARE				
Guidelines for Access/ Availability of Care				<ul style="list-style-type: none"> No changes to these guidelines.
Adults' Access to Preventive/ Ambulatory Health Services (AAP)	✓	✓	✓	<ul style="list-style-type: none"> Added a laboratory claim exclusion to value sets for which laboratory claims should not be used.
Initiation and Engagement of Substance Use Disorder Treatment (IET)	✓	✓	✓	<ul style="list-style-type: none"> No changes to this measure.
Prenatal and Postpartum Care (PPC)	✓	✓		<ul style="list-style-type: none"> Updated the event/diagnosis criteria to clarify which delivery is counted when there are multiple deliveries. Revised the numerator to clarify settings where CPT Category II code modifiers should not be used (previously covered in a General Guideline). Added a laboratory claim exclusion to value sets for which laboratory claims should not be used.
Use of First-Line Psychosocial Care for Children and Adolescents on Antipsychotics (APP)	✓	✓		<ul style="list-style-type: none"> Updated the required exclusion criteria for identifying conditions for which first-line antipsychotic medications may be clinically appropriate. Added a laboratory claim exclusion to value sets for which laboratory claims should not be used. Added <u>Residential Behavioral Health Treatment Value Set</u> to the numerator.

HEDIS MY 2024 Measures	Applicable to:			Changes for HEDIS MY 2024
	Commercial	Medicaid	Medicare	
EXPERIENCE OF CARE				
CAHPS Health Plan Survey 5.1H, Adult Version (CPA)	✓	✓		<ul style="list-style-type: none"> This measure is collected using survey methodology. Detailed specifications and summary of changes are contained in <i>HEDIS Volume 3: Specifications for Survey Measures</i>.
CAHPS Health Plan Survey 5.1H, Child Version (CPC)		✓		<ul style="list-style-type: none"> This measure is collected using survey methodology. Detailed specifications and summary of changes are contained in <i>HEDIS Volume 3: Specifications for Survey Measures</i>.
Children With Chronic Conditions (CCC)		✓		<ul style="list-style-type: none"> This measure is collected using survey methodology. Detailed specifications and summary of changes are contained in <i>HEDIS Volume 3: Specifications for Survey Measures</i>.
UTILIZATION AND RISK ADJUSTED UTILIZATION				
Well-Child Visits in the First 30 Months of Life (W30)	✓	✓		<ul style="list-style-type: none"> Added a laboratory claim exclusion to value sets for which laboratory claims should not be used.
Child and Adolescent Well-Care Visits (WCV)	✓	✓		<ul style="list-style-type: none"> Added a laboratory claim exclusion to value sets for which laboratory claims should not be used.
Antibiotic Utilization for Respiratory Conditions (AXR)	✓	✓	✓	<ul style="list-style-type: none"> Added a <i>Note</i> to the description to clarify that higher or lower service counts do not indicate better or worse performance. Added a laboratory claim exclusion to value sets for which laboratory claims should not be used. Revised the first <i>Note</i> to clarify that supplemental data can be used for required exclusions. Added a <i>Note</i> to clarify which services count.
Guidelines for Risk Adjusted Utilization	✓	✓	✓	<ul style="list-style-type: none"> No changes to these guidelines.
Plan All-Cause Readmissions (PCR)	✓	✓	✓	<ul style="list-style-type: none"> Added a <i>Note</i> to the <i>Product line</i> section. Revised the last <i>Note</i> to clarify that supplemental data can be used for required exclusions.
Hospitalization Following Discharge From a Skilled Nursing Facility (HFS)			✓	<ul style="list-style-type: none"> Moved previously listed Exclusions to Required exclusions. Revised the last <i>Note</i> to clarify that supplemental data can be used for required exclusions.

HEDIS MY 2024 Measures	Applicable to:			Changes for HEDIS MY 2024
	Commercial	Medicaid	Medicare	
				<ul style="list-style-type: none"> Revised the “Denominator Exclusions” criteria in the Clinical Components table under <i>Rules for Allowable Adjustments of HEDIS</i>.
Acute Hospital Utilization (AHU)	✓		✓	<ul style="list-style-type: none"> Revised the last <i>Note</i> to clarify that supplemental data can be used for required exclusions.
Emergency Department Utilization (EDU)	✓		✓	<ul style="list-style-type: none"> Revised the last <i>Note</i> to clarify that supplemental data can be used for required exclusions.
Hospitalization for Potentially Preventable Complications (HPC)			✓	<ul style="list-style-type: none"> Moved previously listed <i>Exclusions</i> to <i>Required exclusions</i>. Revised the last <i>Note</i> to clarify that supplemental data can be used for required exclusions. Revised the “Denominator Exclusions” criteria in the Clinical Components table under <i>Rules for Allowable Adjustments of HEDIS</i>.
Emergency Department Visits for Hypoglycemia in Older Adults With Diabetes (EDH)			✓	<ul style="list-style-type: none"> Updated the event/diagnosis criteria. Added a laboratory claim exclusion to value sets for which laboratory claims should not be used. Updated the Diabetes Medications table. Removed the required exclusion for members who do not have a diagnosis of diabetes. Revised the last <i>Note</i> to clarify that supplemental data can be used for required exclusions. Revised the “Denominator Exclusions” criteria in the Clinical Components table under <i>Rules for Allowable Adjustments of HEDIS</i>.
HEALTH PLAN DESCRIPTIVE INFORMATION				
Enrollment by Product Line (ENP)	✓	✓	✓	<ul style="list-style-type: none"> Updated the “Member months” definition under <i>Calculations</i> to clarify how to calculate member months.
Language Diversity of Membership (LDM)	✓	✓	✓	<ul style="list-style-type: none"> No changes to this measure.
Race/Ethnicity Diversity of Membership (RDM)	✓	✓	✓	<ul style="list-style-type: none"> No changes to this measure.
MEASURES REPORTED USING ELECTRONIC CLINICAL DATA SYSTEMS				
Guidelines for Measures Reported Using ECDS	✓	✓	✓	<ul style="list-style-type: none"> Updated the disclaimer under the <i>Description</i>.

HEDIS MY 2024 Measures	Applicable to:			Changes for HEDIS MY 2024
	Commercial	Medicaid	Medicare	
				<ul style="list-style-type: none"> Removed the definitions of “dQM” and “Master data management” from <i>Guideline 2: HEDIS Definitions and Requirements for ECDS Reporting</i>. Moved the definitions of “FHIR,” “ELM” and “CQL” from <i>Guideline 2: HEDIS Definitions and Requirements for ECDS Reporting</i> to <i>Appendix 3: Glossary</i>. Updated the definition for “denominator” in <i>Guideline 2</i>. Updated <i>Guideline 5: Member Allocation for HEDIS ECDS Reporting</i>. Removed the <i>HEDIS Digital Measure Format</i> guideline (formerly <i>Guideline 6</i>).
Childhood Immunization Status (CIS-E)	✓	✓		<ul style="list-style-type: none"> Refer to the Technical Release Notes file in the Digital Measures Package for a comprehensive list of changes. Added data elements tables for race and ethnicity stratification reporting for the Combination 10 indicator. Expanded the age criteria in the <i>Rules for Allowable Adjustments of HEDIS</i>. Revised the headers in the Clinical Components section of the <i>Rules for Allowable Adjustments of HEDIS</i>. Added a Denominator section to the <i>Rules for Allowable Adjustments of HEDIS</i>. Revised the exclusion criteria in the <i>Rules for Allowable Adjustments of HEDIS</i>.
Immunizations for Adolescents (IMA-E)	✓	✓		<ul style="list-style-type: none"> Refer to the Technical Release Notes file in the Digital Measures Package for a comprehensive list of changes. Expanded the ages criteria in the <i>Rules for Allowable Adjustments of HEDIS</i>. Revised the headers in the Clinical Components section of the <i>Rules for Allowable Adjustments of HEDIS</i>. Revised the exclusion criteria in the <i>Rules for Allowable Adjustments of HEDIS</i>. Added a <i>Denominator</i> section to the <i>Rules for Allowable Adjustments of HEDIS</i>.
Breast Cancer Screening (BCS-E)	✓	✓	✓	<ul style="list-style-type: none"> Refer to the Technical Release Notes file in the Digital Measures Package for a comprehensive list of changes. Revised the headers in the <i>Clinical Components</i> section of the <i>Rules for Allowable Adjustments of HEDIS</i>. Revised the exclusion criteria in the <i>Rules for Allowable Adjustments of HEDIS</i>. Added a <i>Denominator</i> section to the <i>Rules for Allowable Adjustments of HEDIS</i>.
Cervical Cancer Screening (CCS-E)				<ul style="list-style-type: none"> Refer to the Technical Release Notes file in the Digital Measures Package for a comprehensive list of changes.

HEDIS MY 2024 Measures	Applicable to:			Changes for HEDIS MY 2024
	Commercial	Medicaid	Medicare	
				<ul style="list-style-type: none"> Revised the headers in the <i>Clinical Components</i> section of the <i>Rules for Allowable Adjustments of HEDIS</i>. Revised the exclusion criteria in the <i>Rules for Allowable Adjustments of HEDIS</i>. Added a <i>Denominator</i> section to the <i>Rules for Allowable Adjustments of HEDIS</i>. Added data elements tables for race and ethnicity stratification reporting.
Colorectal Cancer Screening (COL-E)	✓		✓	<ul style="list-style-type: none"> Refer to the Technical Release Notes file in the Digital Measures Package for a comprehensive list of changes. Expanded the ages criteria in the <i>Rules for Allowable Adjustments of HEDIS</i>. Revised the headers in the <i>Clinical Components</i> section of the <i>Rules for Allowable Adjustments of HEDIS</i>. Revised the exclusion criteria in the <i>Rules for Allowable Adjustments of HEDIS</i>. Added a <i>Denominator</i> section to the <i>Rules for Allowable Adjustments of HEDIS</i>.
Follow-Up Care for Children Prescribed ADHD Medication (ADD-E)	✓	✓		<ul style="list-style-type: none"> Refer to the Technical Release Notes file in the Digital Measures Package for a comprehensive list of changes. Revised the headers in the <i>Clinical Components</i> section of the <i>Rules for Allowable Adjustments of HEDIS</i>. Revised the exclusion criteria in the <i>Rules for Allowable Adjustments of HEDIS</i>. Added a <i>Denominator</i> section to the <i>Rules for Allowable Adjustments of HEDIS</i>.
Metabolic Monitoring for Children and Adolescents on Antipsychotics (APM-E)	✓	✓		<ul style="list-style-type: none"> Refer to the Technical Release Notes file in the Digital Measures Package for a comprehensive list of changes. Revised the headers in the <i>Clinical Components</i> section of the <i>Rules for Allowable Adjustments of HEDIS</i>. Revised the exclusion criteria in the <i>Rules for Allowable Adjustments of HEDIS</i>. Added a <i>Denominator</i> section to the <i>Rules for Allowable Adjustments of HEDIS</i>.
Depression Screening and Follow-Up for Adolescents and Adults (DSF-E)	✓	✓	✓	<ul style="list-style-type: none"> Refer to the Technical Release Notes file in the Digital Measures Package for a comprehensive list of changes. Revised the headers in the <i>Clinical Components</i> section of the <i>Rules for Allowable Adjustments of HEDIS</i>. Revised the exclusion criteria in the <i>Rules for Allowable Adjustments of HEDIS</i>. Added a <i>Denominator</i> section to the <i>Rules for Allowable Adjustments of HEDIS</i>.

HEDIS MY 2024 Measures	Applicable to:			Changes for HEDIS MY 2024
	Commercial	Medicaid	Medicare	
Utilization of the PHQ-9 to Monitor Depression Symptoms for Adolescents and Adults (DMS-E)	✓	✓	✓	<ul style="list-style-type: none"> Refer to the Technical Release Notes file in the Digital Measures Package for a comprehensive list of changes. Revised the headers in the <i>Clinical Components</i> section of the <i>Rules for Allowable Adjustments of HEDIS</i>. Revised the exclusion criteria in the <i>Rules for Allowable Adjustments of HEDIS</i>. Added a <i>Denominator</i> section to the <i>Rules for Allowable Adjustments of HEDIS</i>.
Depression Remission or Response for Adolescents and Adults (DRR-E)	✓	✓	✓	<ul style="list-style-type: none"> Refer to the Technical Release Notes file in the Digital Measures Package for a comprehensive list of changes. Revised the headers in the <i>Clinical Components</i> section of the <i>Rules for Allowable Adjustments of HEDIS</i>.
